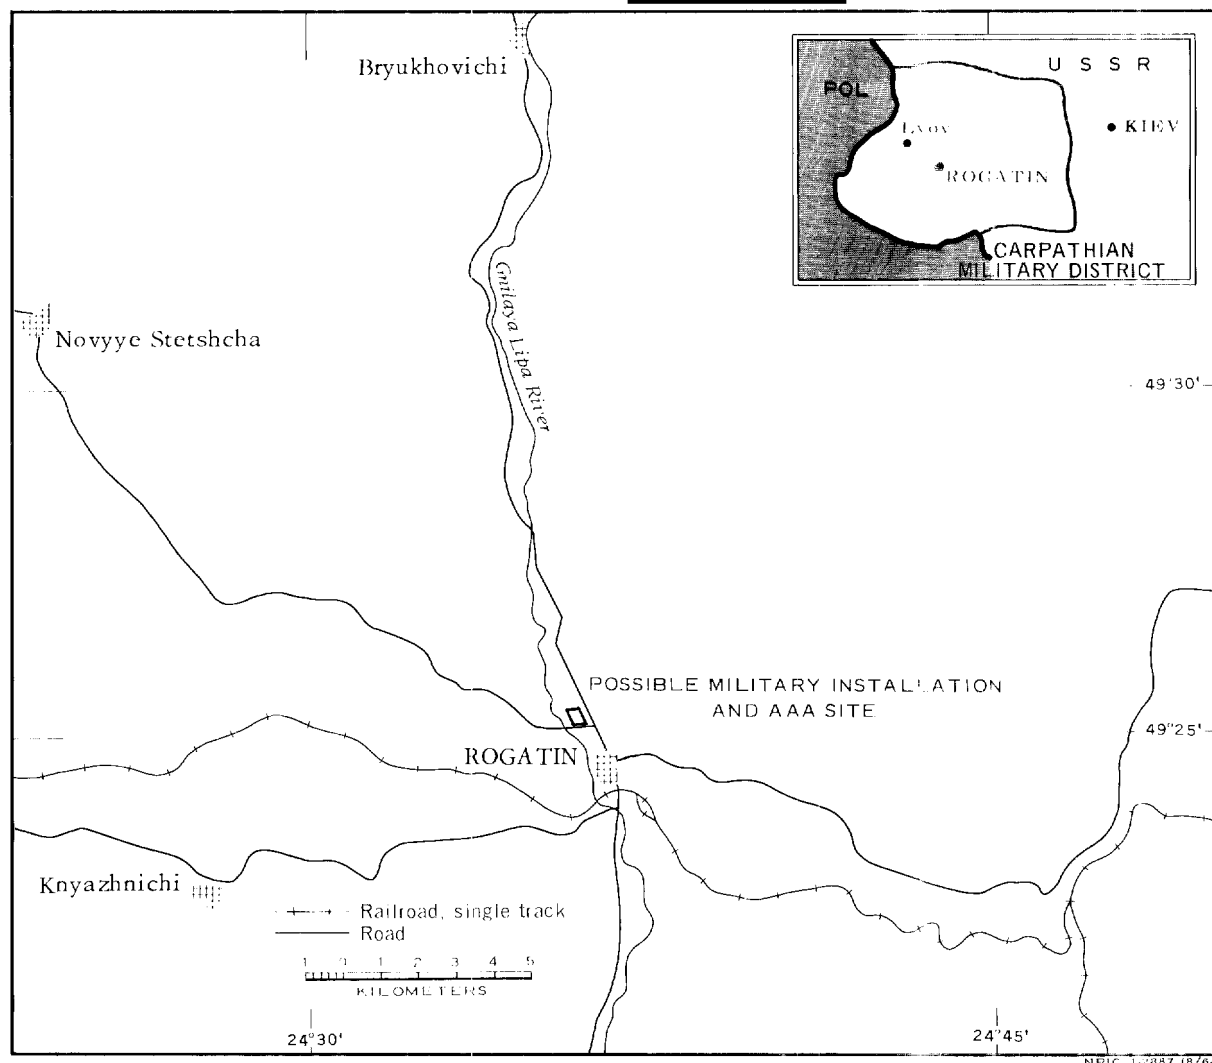

FIGURE 1. LOCATION OF POSSIBLE MILITARY INSTALLATION AND AAA SITE.

### SUMMARY

A small antiaircraft artillery training school covering approximately 40 acres is located two kilometers (km) north of Rogatin (Figure 1). An unoccupied eight-gun AAA site is located in the southern section of the installation adjacent to the road to Novyye Stetshcha. The individual gun positions do not appear to be revetted, but they are flat hardstands.

The installation (Figures 2 and 3) contains eight small single-story barracks, four administrative buildings, six storage buildings, five

support buildings, and two motor vehicle storage buildings. An athletic field is directly across the main highway from the site. No rail or aircraft facilities were noted within the area. Good all-weather roads connect the site with nearby cities. No training facilities or areas were noted within 25 km of the site.

The site has not changed since photography of [REDACTED]. The installation was covered by two KEYHOLE missions -- [REDACTED]
